

# Saleh Yassin

## Junior ReactJS Front End Web Developer

Hi I am Saleh and I am passionate about everything coding and all complex stuff related. I work hard, and care about writing clean code, and I genuinely love to learn. I am currently looking for the right opportunity to work in an environment that will help me progress into a Full Stack role.

## EDUCATION

### Front End Web Development Coursera

03/2022 - 05/2022

Courses

- HTML
- CSS
- JavaScript

### React.js Udemy

06/2022 - Present

Courses

- React.js

## WORK EXPERIENCE

### Front End Development Freelance Project

06/2022 - 06/2022

Achievements/Tasks

- Worked for a Freelance project. It was a pure React project, changed it from old style to new style as provided, added some more paragraphs, titles, buttons, and replaced some pictures with new ones. Added more CSS rules to it and assured that the project at the end was fully Responsive using Grids, Media Queries, and FlexBox.

### Quality Assurance Freelance Project

05/2022 - 09/2022

E-commerce Web Applications

Achievements/Tasks

- Writing Test Cases
- Software Testing (UI: Based on Screens / UX: Based on User Stories & Business Rules)
- Ensured Web Responsiveness & Smoother User Experience
- Bug Reporting Using (Jira Software)

## SKILLS

HTML & CSS

React.js

Bootstrap

GitHub

JavaScript

Front End Development

Git

## PERSONAL PROJECTS

### Expenses Tracking Project

- Created Custom Components, Wrote JSX Code
- Outputted Dynamic Data & Worked with Expressions in JSX
- Passed Data Via Props, Added JavaScript Logics
- Organized Components Into Multiple Files
- Added Children Props 'Composition', Worked With State
- Added Two Way Binding To Clear Inputs After Submission
- Added Key ID's To Lists
- CSS modules Styles Was Used

### Usernames Adding project

- Passed Data Via Props, Added JavaScript Logics
- Organized Components Into Multiple Files
- Added Two Way Binding To Clear Inputs After Submission
- Worked With State
- CSS Modules Was Used To Style

### Food Application App

- Custom Components, JSX Code
- Card Component to Manage Certain Styles For Multiple Components
- Managed Lists For Meals and Menues
- Used Portals to Manage Modals & Backdrops
- Used Context Instead of Props Due To Connections That Were Needed From All Components in The Project
- Used useRef Instead of useState For Cleaner Code

### Personal Portfolio

- I Built My Personal Portfolio Using Pure ReactJS Language
- Custom Components, Downloadable CV, Registered Contact Form
- Responsive to All Devices
